# J. S. STARNES & SONS'

## PATENT

# STERN-TUBE SAFETY VALVE

### FOR SCREW STEAMERS.

*Important to Steamship Owners and Marine Engineers.*

ELEVATION

SECTION

#### ADVANTAGES.

It can easily be fitted to any Stern Tube in a few hours, and can be worked inside the tunnel or above. The Water in the Stern Tube is entirely under control, and may be shut off for repacking Stern Gland when at Sea. It is so simple that the Valve can be worked to the greatest nicety, and if at any time the Shaft is drawn for repairs, or otherwise, our Valve can be shut right down and thus keep the Water entirely out of the Ship.

#### DESCRIPTION.

This Invention has for its object to provide a means for preventing any undue leakage or rush of Water from the Stern Tubes of Screw Steamers at any time when afloat, as it is desirable that the Engineer of a vessel should have control of Water in the Stern Tube and be able to repack the Stern Gland Stuffing Box at any time, even at Sea. It is constructed to effect this in a few minutes, and it can be fitted to any Stern Tube without interfering with present fittings. This Valve is flanged in halves in the centre line, and can easily be removed when required; it is fitted with Stuffing Box on the fore part, and has a deep Spigot formed on the after part to fit into Stern Tube—so the shaft will be well supported.

In appearance the device resembles an ordinary Sluice Valve, which fits on the top of Tail Shaft accurately; the lower part of the Shaft keeps its position water-tight whenever it rests in the Tube or Stuffing Box. Then it will be seen that over the upper half of the Shaft or where leakage takes place it can be made perfectly tight, as the Valve is moved down on the top of Shaft, and in the case of the Shaft being broken, or loss of Propeller Blade, the Shaft may be withdrawn and our Valve can then be screwed right down and thus shut the Water entirely from the Ship.

**CHURCH SHIP FOR THE NORTH SEA.**

An appeal issued by the Council in 1891, in answer to a requisition from 37  
East Coast Clergymen for a distinctive Church of England Ship for the North  
Sea, has produced about £1,400.

Recently J. R. West, Esq., a well-known yacht-owner, has generously placed  
a fine yacht, the *Goshawk*, 141 tons register, at the service of the Mission, so long  
as it can be maintained as a Church ship.

When adapted for a floating church, she will accommodate 150 men at divine  
service. Needful alterations and fittings will cost about £500, and £1,000 a year  
will be required to maintain her efficiently.

The Committee confidently and urgently appeal for funds to enable them to  
provide this long-needed vessel for the numerous Church of England Fishermen  
who so greatly appreciate the services of their Church when ashore.

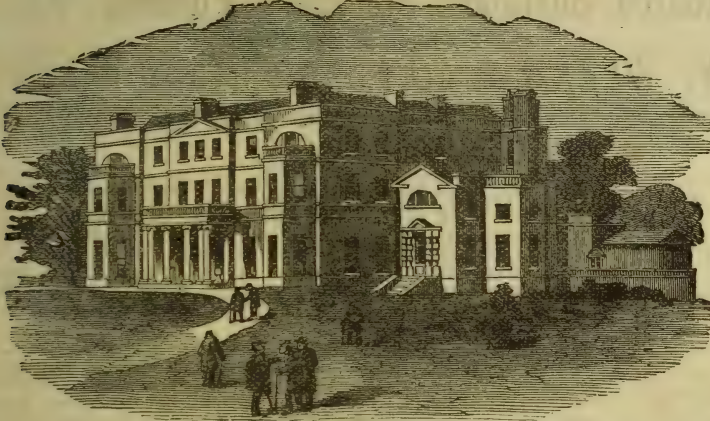

**CONTRIBUTIONS** will be thankfully received, and should be sent to the  
Secretary, 65 Fenchurch Street, London. Bankers—London & County Bank.  
Office, 65 Fenchurch Street. WM. EVAN FRANKS, Secretary.

**CAPTAIN WEEKS'S**  
**COMPOSITION**  
 FOR  
**Heated Surfaces, Steamers' Funnels, &c.**

ESTABLISHED 1868.

**J. W. WEEKS & SON, Sole Manufacturers,**

Office: 276 WESTMINSTER ROAD; Works: SMEATON STREET, N.;

**LIVERPOOL.**

A frequent enquiry among Steamship Owners, and those connected with the management of Steamers, is, how to preserve the Funnels and keep them clean. The obvious answer is,

**USE WEEKS'S HEATED SURFACE COMPOSITION,**

which is especially prepared to withstand the heat, does not blister or change colour, nor will it wash off. It has stood the test of many years, and is now in use by the principal Companies throughout the United Kingdom. Funnels coated with this Composition, after five years' use, are in better condition than those which have been coated with other Compositions for two years. It is economical, because 1 lb. of the Composition will go as far as 2 lbs. of ordinary paint. It is prepared in all colours, and supplied mixed ready for use in 28-lb. and 56-lb. drums.

*Below are a few well-known Companies and Firms who are using our Composition :—*

H.M.'s Consular Service; Cunard R.M.S.S. Co.; White Star Line; Guion Line; Atlantic Transport Line; Union S.S. Co.; West India and Pacific R.M.S.S. Co.; Glasgow & South-Western Railway Co.; Southampton, Isle of Wight, and South of England R.M.S.S. Co.; Nelson Line; Empress Line; Glynn Line; Papayanni Line; Red Cross Line; Indra Line; Canadian Pacific Railway S.S. Co.; Compagnie Maritime du Pacifique; D. & C. McIver & Co.; David MacIver & Co.; John Kirkaldy & Son, London; Harland & Wolff, Belfast; Bahr, Behrend & Ross; Hugh Evans & Co.; The Atlantic Engine Works, Liverpool; Mersey Docks and Harbour Board (Engineers' & Marine Departments); Alexandra Towing Co.; Bournemouth, Swanage and Poole S.S. LONDON AND SOUTH-WESTERN RAILWAY.

## SOUTHAMPTON.

THE SOUTHAMPTON DOCKS, 78 miles from London, are now owned and managed by the London and South Western Railway Company. They are situated within a very sheltered harbour, and have the unusual natural advantage of double tides, with practically four hours of high water, thus affording unrivalled accommodation to the largest steamers afloat, or now being built.

The Empress Dock has an entrance 165 feet wide, with a MINIMUM depth of 26 feet at LOW water, AND IT IS THE ONLY DOCK IN GREAT BRITAIN WHERE DEEP WATER LOADING AND DISCHARGING BERTHS CAN BE REACHED BY THE LARGEST VESSELS AT ANY TIME OF THE DAY OR NIGHT, irrespective of the state of the tide. Special trains from Waterloo (London) run direct into the docks alongside the Mail Steamers on days of arrival and departure.

There is first-class accommodation for the docking and repair of vessels up to 8,000 tons register, and an additional Graving Dock, THE LARGEST IN THE WORLD, is in course of construction.

There are spacious transit sheds for the reception of Import and Export Cargoes, and bonded and free warehouses for the storage of every description of Merchandise, also commodious vaults and stores for the Housing of Wines and Spirits, Tobacco, Cigars, etc., under bond.

THERE ARE UPWARDS OF 100,000 SQUARE FEET OF SPECIALLY CONSTRUCTED SHEDDING FOR THE STORAGE OF WOOD GOODS.

The position of Southampton as a point for the importation and distribution of all kinds of Foreign and Colonial produce, and for the ocean steam trade generally, is unsurpassed, and every accommodation will be given to Shipowners or Companies organising steamship lines having Southampton for their point of arrival and departure.

THERE IS A COMPLETE SYSTEM OF HYDRAULIC POWER (CRANES, COAL HOISTS, ELEVATORS, CAPSTANS, ETC.); THE WHOLE OF THE DOCK QUAYS, SHEDS, AND APPROACHES ARE LIGHTED BY ELECTRICITY; AND THE CHANNEL FROM THE SEA TO THE DOCKS IS BEING DREDGED TO A DEPTH OF 30 FEET AT LOW WATER.

THE SOUTH-WESTERN RAILWAY are also owners of a fleet of FAST, COMFORTABLE, AND WELL-APPOINTED STEAMERS, and have daily services (Sundays excepted) to the CHANNEL ISLANDS, also to HAVRE (for Paris, Honfleur, Caen, Trouville, Deauville, Rouen, Switzerland, and South of France). These steamers are specially constructed for, and are undoubtedly the most popular in, the Channel Service.

There is an *Express Service from Paris, etc. (via Havre), to Southampton on Friday evenings, in connection with the departures of the American Liners "New York," "Paris," etc., on the following day.*

There are also SAILINGS ON ALTERNATE DAYS (Sundays excepted) to ST. MALO (for St. Servan, Paramé, Dinard, and Dinan) and CHERBOURG direct; and CONNECTING SERVICES BETWEEN JERSEY AND GRANVILLE, AND JERSEY AND ST. MALO, three times weekly in Summer, and twice weekly in Winter; and also a tri-weekly service from Honfleur with cargo only.

Passengers leave London (Waterloo), and are taken direct to steamer's side in the Docks in about an hour and three quarters from leaving London.

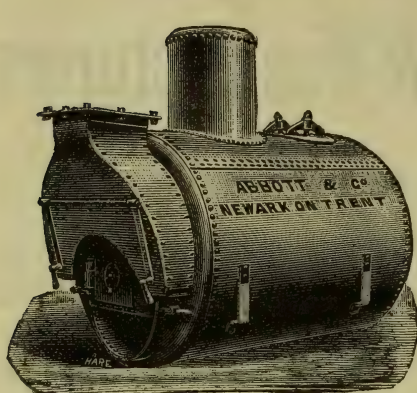

Communications respecting Railway Passenger Traffic may be addressed to Mr. G. T. WHITE, Superintendent of the Line, Waterloo Station, London; and Railway Goods Traffic to Mr. C. J. OWENS, Goods Manager, Waterloo Station, London; and the fullest information on all points connected with the business of the Docks and Steam Packets may be obtained on application to the

Docks and Marine Superintendent, Mr. JOHN DIXON, Dock House, Southampton.

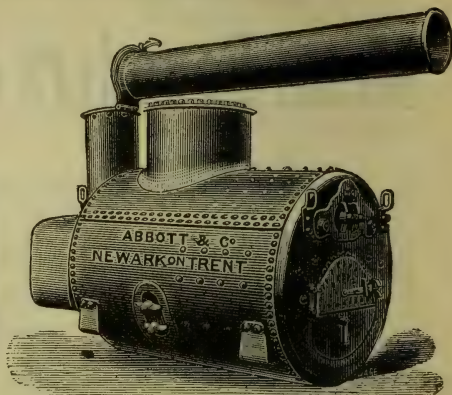

CHARLES SCOTTER, General Manager.

Tidal Harbours have over 8,300 feet of public quay space, the depths alongside ranging from 13 feet to 25 feet at low water spring tide.

The CARNOT DOCK, inaugurated in May, 1889, by the President of the Republic, with a water area of 29 acres, is 3,275 feet long and 600 feet broad. There are two parallel Locks. The width of the South Sluice is 69 feet; the width of the North Sluice is 46 feet. Depth on Sills:—Spring tides, 29 feet 2 inches; neap tides, 25 feet. The **DRY DOCK** is 509 feet long and 69 feet wide.

The Carnot Dock and the old West Dock are connected with the whole Railway and Canal System of France, alongside ships.

**SHEDS** of 130 feet in breadth, with overhanging roofs on either side, are erected along the quays on a length of 1,835 feet.

**FIFTEEN HYDRAULIC CRANES**, one of them being able to lift up to 40 tons, have been placed all along the quays.

The charges for same, including water-pressure and man, are 40f. per day of 10 hours, and 60f. per night of 10 hours.

**THE TOTAL INCLUSIVE CHARGES** on vessels entering and leaving Calais Harbour are as follows upon each ton of freight, with a cargo only one way:—

1st. **COASTING VESSELS:—**

Steamers laden with coals ... .. 1s. 7d. per ton d.w.  
 „ „ pig iron... .. 1s. 4d. „

2nd. **BLACK SEA AND EUROPEAN PORTS**, excepting the above mentioned cargoes:—

Steamers laden with grain, 1s. per ton of wheat; other grain in proportion.  
 Steamers laden with timber, 1s. 10d. per ton of timber.

3rd. **OVERSEA TRADING VESSELS:—**

Steamers laden with grain, 1s. 6d. per ton of wheat; other grain in proportion.  
 Sailers laden with grain, 2s. 8d. per ton of wheat; other grain in proportion.

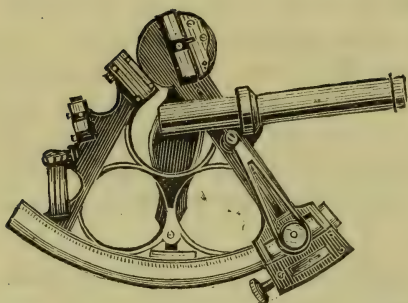

The export of sugar by this port from October, 1892, up to 31st of December, 1893, was over 21,000 tons.

The import of petroleum by the tank steamer “Ville de Douai” was over 15,000 tons in 1893.

# NEW NAUTICAL INSTRUMENTS

FOR SAFE AND ACCURATE NAVIGATION.

---

## THE AZIMETER.

The most perfect instrument made for taking Azimuths, Bearings, Angles, and constantly Checking the Compass. Can be used both by night and day. Price, complete, £20.

☛ Should be on the Bridge of every Steamship.

## THE PAGET STANDARD COMPASS,

With our recent improvements, is the most perfect Standard Compass for an iron ship, being steady, sensitive, compensated, and possessing the great advantage over all other Standard Compasses that Azimuths and Bearings can be taken with it by night or day with increased accuracy WITHOUT REMOVING THE BINNACLE TOP. Price £50.

☛ Should be inserted in every new Specification.

## THE RADIOGRAPH.

Simplest, best, and most accurate instrument for Chart Work ever invented. Price, complete in case, 8/6.

## NEW SEXTANT BINOCULAR,

For Star Observations. Can be fitted to any Sextant,—35/-

## NEW ANGLE SEXTANT,

For Station Pointer Work. A handy tool for a smart Officer. Price, complete in case, £4.

## IMPROVED LUNAR SEXTANTS.

Highest quality, with Class "A" Kew Certificates. Silver Arch, £13; Platina Arch and Gold Vernier, £16.

## THE MATE'S SEXTANT.

Complete in case, Silver Arch, 10 seconds, £5.

## THE MERCANTILE NAVY LIST.

The name and address of the Owner, or Part Owner, are printed in ordinary type.

A cross prefixed to the name of any person signifies that he is registered under section 36 of "The Merchant Shipping Act, 1876," as "Managing Owner."

The printing of the name and address of any person in italics signifies that such person, though not the owner of shares, has, under section 36 of "The Merchant Shipping Act, 1876," been registered in the United Kingdom as the person ("Manager" or "Ship's Husband,") to whom the management of the ship has been entrusted. It has not been found possible to extract this information in all cases, especially with regard to vessels of comparatively small tonnage, and the Editor would be glad to have his attention called to any omissions under this head.

Great care has been taken in the compilation of this book, but it is possible that some few typographical and other errors may be detected. Such inaccuracies, if pointed out to the Registrar General of Shipping and Seamen, by whom the book is edited and whose address is given below, will be corrected before the 1895 Edition is published.

CUSTOM HOUSE, LONDON, E.C.

# "TABLOID" MEDICINE CASES AND CHESTS.

ONE HUNDRED AND TWENTY SEVEN AWARDS have been conferred upon Burroughs, Wellcome & Co., at the great Exhibitions of the World for their fine products, including eleven Gold Medals, at the Chicago Exposition 1893.

Burroughs, Wellcome & Co., make a special feature of **Portable Medicine Cases and Chests** fitted with "**Tabloids**" (trade-mark) of **Compressed Drugs**, varying in size and capacity from a small Pocket Case holding five small vials, to the Congo Chest, containing 36 large bottles of "**Tabloids**," and accommodation for a considerable supply of Surgical Appliances. A "**Tabloid**" Medicine Chest or Case constitutes the **best possible Medical Equipment** for **Explorers, Travellers, Missionaries, Army and Ship Surgeons, Planters, Yachtsmen, Mountaineers, Mining Companies, Colonists, Engineers, etc., etc.**, as well as for general family use.

THE ALPINE CASE.

Estimates made for special equipments.

The late Surgeon-Major T. H. Parke, Medical Officer of Stanley's Emin Pasha Relief Expedition, wrote in his latest book "Guide to Health in Africa" regarding 'Tabloids':—

"The medicinal preparations which I have throughout recommended are those of Messrs. Burroughs, Wellcome & Co., as I have found after a varied experience of the different forms in which drugs are prepared for foreign use, that there are none which can be compared with them for convenience of portability in transit, and for unfailing reliability in strength of doses after prolonged exposure. I have always felt that the Officers of the Emin Pasha Relief Expedition, one and all, owed their lives to the unchangeability of these preparations, and know that I am but fulfilling my duty to every traveller in recommending them."

The late Commander Lovett Cameron, the distinguished African Explorer said of "Tabloids" and "Tabloid" Cases:—"Anything so complete in so small and portable a shape, it is almost impossible to imagine."

THE CONGO CASE.

## PHOTOGRAPHIC "TABLOIDS" (B. W. & Co.)

By using the Portable Photographic "Tabloids" Explorers and Travellers are enabled to develop their plates at once, instead of being obliged to postpone development until the end of their journey. Photographic 'Tabloids' are Accurate, Lasting, Energetic, and Portable. They save Time, Material, Money, and Trouble. Full list sent on application.

Depôt also for Kepler Malt Preparations, "Hazeline," "Hazeline" Cream, Beef and Iron Wine, "Lanoline," and "Lanoline" Preparations, Dermatol, Diuretin, Saccharin, "Tabloids" for Ophthalmic use, "Tabloids" for Hypodermic use, Vereker Chloride of Ammonium Inhalers, Lawton's Absorbent Cotton, Fairchild Digestive Preparations, Thermo-safeguard Feeding Bottles, Ichthyol and Preparations, 'Soloids,' Emol Keleet, etc., etc.

**Burroughs, Wellcome & Co.,**

*Manufacturing Chemists,*

**SNOW HILL BUILDINGS, LONDON, E.C.**

## NOTICE.

---

### *The International Code of Signals.*

This Code is the universal means of communication between the Ships and Signal Stations of all nations. It is used on board Her Majesty's ships, and has been adopted by all the principal maritime powers for their Imperial as well as for their Mercantile Navies, viz. :—

|                     |            |
|---------------------|------------|
| England.            | *Italy.    |
| *France.            | *Austria.  |
| America.            | *Germany.  |
| *Denmark.           | *Spain.    |
| *Holland.           | *Portugal. |
| *Sweden and Norway. | Brazil.    |
| Russia.             | Belgium.   |
| Greece.             |            |

As the Code has been universally adopted, the necessity is apparent that the officers and men of the British Mercantile Marine should be familiar with it ; the Lords Commissioners of the Admiralty have accordingly ordered that all men belonging to the Royal Naval Reserve, who act as Masters and Mates of ships, are to be instructed in its use ; and the Board of Trade, on the recommendation of the Committee of Lloyd's, have directed that all Candidates for Masters' or Mates' Certificates of Competency must in future pass a satisfactory examination in the "International Code of Signals."

The International Code is the *only Code* now used at the Signal Stations on our Coasts, and at the Signal and Semaphore Stations of other countries, and the officers at these stations have *no means of understanding or signalling by any other Code.*

---

\* Translations of the Code have been made by these Governments.

### *Lloyd's Signal Stations.*

The Corporation of Lloyd's has Signal Stations on the following points of the Coasts of the United Kingdom :—

|  |  |               |
|--|--|---------------|
| Southend Pier.                                       | *Roches Point, Queens-                   | } (Ireland).  |
| North Foreland.                                      | town. (Temporarily discontinued.)        |               |
| Deal.  | Tory Island                              |               |
| *Dover.  | (co. Donegal),                           |               |
| Dungeness.   | Malin Head,                              |               |
| Beachy Head.   | Rathlin Isld. (Temporarily discontinued) | } (Scotland). |
| St. Catherine's Point (Isle of Wight).               | Tor Head, } (Temporarily discontinued.)  |               |
| Portland Bill. (Temporarily discontinued.)           | co. Antrim }                             |               |
| *Prawle Point.                                       | Kildonan,                                |               |
| *The Lizard.   | Lamlash,                                 |               |
| Scilly Islands.                                      | *Stornoway,                              | } (Scotland). |
| Lundy Island,  | Butt of Lewis,                           |               |
| St. Ann's Head, } (Temporarily discontinued)         | Dunnet Head,                             |               |
| (Milford Haven.) }                                   | St. Abb's Head,                          |               |
| Calf of Man. (Telegraphic connection not completed.) | Flamborough Head.                        |               |
| *Old Head of Kinsale, } (Ireland.)                   | Spurn Head.                              |               |
| *Brow Head,  | Grimsby.                                 |               |
|  | Aldbrough. (Temporarily discontinued.)   |               |

These stations are available to shipowners for reporting the passing of their vessels.

The Meteorological Office sends to Lloyd's Signal Stations at North Foreland, St. Catherine's Point, Prawle Point, the Lizard, Lundy Island, Flamborough Head, St. Abb's Head, Dunnet Head, Malin Head, Brow Head, and Old Head of Kinsale, telegrams announcing atmospheric disturbances near the Coasts of the British Islands. The fact that one of these notices has been received at any Station is made known by hoisting a Cone three feet high and three feet wide at base, which appears as a triangle when hoisted.

#### SOUTHERLY GALE.

The *CONE point downwards* means that gales, or strong winds, are probable, at first from the Southward; that is from S.E. round by S. to N.W.

Should it appear likely that a gale will begin from between W. and N.W., and also that it is likely to *veer* towards N. or N.E., the *North Cone* will be hoisted in preference to the *South Cone*.

#### NORTHERLY GALE.

The *CONE point upwards* means that gales or strong winds are probable, at first from the Northward; that is from N.W. round by N. to S.E.

Should it appear likely that a gale will begin from between E. and S.E., and also that it is likely to *veer* towards S. or S.W., the *South Cone* will be hoisted in preference to the *North Cone*.

---

\* At these stations arrangements have been made to take Night Signals.

The Cone is kept hoisted until dusk, and then lowered, but is hoisted again at daylight next morning, and so on until the end of 48 hours from the time at which the message was issued from London.

Signal Stations connected by cable with the shore, such as Tory Island and Lundy Island, will indicate the interruption of telegraphic communication by showing two Black Balls at the head of the Signal Mast, and these balls will remain in position until communication is restored (night time excepted).

There are also Signal Stations abroad with which vessels can communicate by means of the *International Code*, of these probably the most important are at

|                                       |                                    |
|---------------------------------------|------------------------------------|
| Aden (Lloyd's).                       | Madeira (Lloyd's).                 |

| Ascension (Lloyd's).                  | Montserrat, West Indies (Lloyd's). |
| Bermuda (Lloyd's).                    | Oitavos, Portugal.                 |
| Bosphorus (Lloyd's).                  | Oxo, Norway.                       |
| Cape L'Agulhas (Lloyd's).             | Palais, Belle Isle.                |
| Cape Carvoeiro, Portugal.             | Perim (Lloyd's).                   |
| Cape Point, Cape Good Hope (Lloyd's). | Port Said (Lloyd's).               |
| Cape Spartel (Lloyd's).               | Sagres, Portugal.                  |
| Faerder (Norway).                     | Skagen, Denmark.                   |
| Fayal (Lloyd's).                      | St. Helena (Lloyd's).              |
| Gibraltar (Lloyd's).                  | Suez (Lloyd's).                    |
| Heligoland (Lloyd's).                 | Teneriffe (Lloyd's).               |
| Honolulu (Lloyd's).                   | Torres Straits.                    |
|                                       | Ushant.                            |

At these Signal Stations the International Code is the *only* Code recognised, and vessels of any nation may make their names known by means of this Code, and thus secure the immediate publication of the announcement in "The Shipping Gazette & Lloyd's List" and "Lloyd's Weekly Shipping Index." Cases of wreck or other accidents at sea should always be made known by shipmasters to the Signal Stations with which they communicate.

### *The Code List.*

This list forms an Appendix to the *International Code of Signals*, and is prepared for the purpose of enabling officers at Signal Stations on shore, and Masters of ships at sea, to signal and report passing ships. It is published annually, and contains to the date of its publication the name and distinguishing signal of every British registered vessel to which a *Code Signal* has been allotted, and also in the Appendix the names of certain Foreign ships having International Code Signals. The price of the Code List (including the Appendix) is 5s.

Quarterly Supplements are also issued.

### *Appendix to Code List.*

Masters or Agents of *Foreign Vessels* may have the names of their Ships and their Ships' International Code of Signals inserted in the Appendix to the Code List, on application to Messrs. Spottiswoode & Co., 54 Gracechurch Street, London, or to the Secretary of Lloyd's, London, E.C., and on payment of a fee of 5s.

### *Signals for Ships' Names.*

Application for the allotment of a *Code Signal* for the purpose of making a ship's name known at sea should be made, if the ship belongs to the United Kingdom, to the Registrar General of Shipping and Seamen, Custom House, London, E.C., and if she belongs to the Colonies, to the Registrar of Shipping at the port to which the ship belongs. Forms for this purpose can be obtained at any Custom House in the United Kingdom.

As it is important that the signal letters, when appropriated to any vessel, should in all cases be *marked upon the ship's Certificate of Registry* the Certificate should be forwarded with the application, if possible.

### *Reports of Speakings.*

Forms for reporting ships spoken at sea, disasters, &c., will be supplied on application being made to the Secretary, Lloyd's, London, E.C., or to the "Shipping Gazette and Lloyd's List" Office, 54 Gracechurch Street, London, E.C.

A list of Lloyd's Agents will be found at the end of this book (page 731), and *Masters of Vessels are requested to communicate to any of these Agents at their first port of call, or of arrival, disasters of any kind that may have come to their knowledge during their voyage, or any incident of maritime importance, such as bad weather, obstructions to navigation, gales, wrecks, or vessels in distress passed at sea.*

These Agents are specially appointed, to aid Masters of Vessels with their advice or otherwise, by the Agency Committee of Lloyd's, upon which sit representatives of the Marine Insurance Associations of the United Kingdom and of the Shipowners' Association.

According to English law, the master of a vessel has, as Agent of the shipowner, control over both ship and cargo, and is responsible for both. Nothing less than a special power can take away this control over the property confided to his charge ; but the Master can appoint an Agent, and it is presumed that he will, on behalf of the assured, or their representatives, readily avail himself of the assistance of an Agent who is specially appointed by Lloyd's, and whose co-operation will facilitate the settlement of loss or average with the underwriters.

# FOREIGN STATES WHICH HAVE AGREED TO SURRENDER DESERTERS (FOREIGN DESERTERS' ACT),

15 Vic. cap. 26., 1852.

Reciprocal engagements have been entered into, between Great Britain and each of the following States, for the mutual surrender of Seamen who desert from the Merchant Ships of either country in the Ports of the other; namely:—

|                               |                         |
|-------------------------------|-------------------------|
| America (United States of)    | Morocco and Fez.        |
| Austria.                      | Netherlands.            |
| Belgium.                      | Nicaragua.              |
| Brazil.                       | Ottoman Porte.          |
| Chile.                        | Paraguay (Republic of). |
| Columbia (United States of).  | Peru.                   |
| Congo (Independent State of). | Portugal.               |
| Denmark.                      | Russia.                 |
| Equator (Republic of).        | Salvador.               |
| France.                       | Siam.                   |
| Germany.                      | Spain.                  |
| Greece.                       | Sweden and Norway.      |
| Hawaiian or Sandwich Islands. | Tunis.                  |
| Italy.                        | Uruguay (Republic of).  |
| Madagascar.                   | Zanzibar.               |
| Mexico.                       |                         |

Foreign States, with which in pursuance of Orders in Council, arrangements have been made under Section 5 of the Merchant Seamen (Payment of Wages and Rating) Act, 1880 (43 and 44 Vic. Cap. 16), for the prevention of persons going on board, or being on board their ships without permission, and for the punishment of offenders.

|                            |     |     |     |     |     |                       |
|----------------------------|-----|-----|-----|-----|-----|-----------------------|
| Italy                      | ... | ... | ... | ... | ... | 2nd March, 1881.      |
| Sweden and Norway          | ... | ... | ... | ... | ... | 25th October, 1881.   |
| Germany                    | ... | ... | ... | ... | ... | 30th November, 1882.  |
| America (United States of) | ... | ... | ... | ... | ... | 22nd May, 1883.       |
